Subject: NORDAM Repair Division extension of CAAC MOC approval – F00100013

To whom it may concern,

This letter is to inform you that NORDAM Repair Division (NRD) has received special temporary approval from the Civil Aviation Administration of China (CAAC), via their online customer portal to extend the validity of our CAAC Part 145 Maintenance Organization Certificate (number F00100013), which expired on 31DEC2020 until 30JUN2022. This temporary approval is based on the CAAC not being able to process our approval renewal application before the expiry date on the approval certificate due to travel restrictions stemming from COVID-19 preventing an on-site audit.

This temporary approval is valid until we have received any other formal approval issued by the CAAC or the date of 31DEC2021, whichever comes earlier. NRD is therefore approved to release aircraft components after completion of maintenance work during this period by this Special Approval, and the work scope being limited to the Ratings specified on the MOC.

Regards,

Barry G Johnson
