Subject: The NORDAM Group LLC - extension of CAAC MOC approval – Cert No. F00100400

To Whom It May Concern,

This letter is to inform you that The NORDAM Group LLC has received special temporary approval from the Civil Aviation Administration of China (CAAC), via their online customer portal to extend the validity of our CAAC Part 145 Maintenance Organization Certificate F00100400, which will expire on 31DEC2021.

The expiration date has been extended to 30JUNE2022. This temporary approval is based on the CAAC not being able to process our approval renewal application before the expiry date on the approval certificate due to travel restrictions stemming from COVID-19 preventing an on-side audit.

This temporary approval is valid until we have received any other formal approval issued by the CAAC or the date of 30JUNE2022, whichever comes earlier. The NORDAM Group LLC is therefore approved to release Aircraft components after completion of maintenance work during this period by this Special Approval, and the work scope being limited to the Rating specified on the MOC and the latest Maintenance Capability List accepted by CAAC.

Regards,

A handwritten signature in black ink, appearing to read "Darryl Graham".
