

INS and NMX Quality Policy

NORDAM Interiors & Structures and NORDAM Mexico Divisions are committed to achieving our customer expectations and meeting regulatory requirements for its aerospace products and services. Our focus is on placing the customer first, being process disciplined and data driven. This is achieved by stakeholders working together with our customers and suppliers to continually improve our Safety, Quality & Delivery Performance.

QUALITY OBJECTIVES

Quality objectives are quantified in divisional and departmental goals annually.

These quality objectives include:

- Meeting the contractually agreed customer requirements for product conformity.*
- Meeting the committed delivery performance.*
- Maintaining safe work practices and work environment.*
